

Restaurant Paging System **ServerCall®**

Hot Food Hot- Guaranteed!

Deliver the best guest experience possible with ServerCall restaurant paging system. ServerCall keeps waiters, chefs and managers in constant communication and working more efficiently. Waiters are instantly notified when the food is ready for pickup while it's still hot and fresh.

ServerCall helps you win customers and manage your staff more effectively and profitably. With ServerCall, wait staff can spend more quality time with guests, selling more and keeping customers satisfied. Servers handle tables more productively, reducing labor costs. Whether your restaurant is large or small, ServerCall comes with a variety of transmitter and pager choices that fit any budget.

ServerCall keeps your servers working at peak performance for exceptional customer service

ServerCall Highlights

- > **Auto Recall Feature**
Automatically pages the server up to three times when food is ready for pickup. If the third page is unanswered, the manager is paged to provide further assistance.
- > **All-Page Feature**
Allows managers to quickly send a message to the entire staff, such as announcing a "shift meeting" or that an item is no longer available.
- > **Most Reliable Pagers**
Made to withstand the harsh restaurant environment.
- > **Manager Button**
Instantly calls the manager to the kitchen to provide additional assistance when necessary.
- > **Multiple Pager and Transmitter Choices**
Mix and match pagers for the best solution to fit your budget and operation.
- > **User-Replaceable Rechargeable Batteries**
Battery replacement is easy and convenient, keeping the cost of ownership down.
- > **Unique System ID**
Prevents neighboring paging systems from interfering with your communication.
- > **Flexible Integration**
ServerCall can integrate with other HME Wireless paging solutions to achieve even greater restaurant efficiency.

Additional pager options available

CrystalCall® Belt Clip Pager

Pager vibrates and lights when paged.

SmartCall™ Numeric Pager

Numeric 1 line or 12 character text messaging pager. Also available with a paddle.

Manager Pager

Alphanumeric messaging belt clip pager with AAA replaceable battery.

Watch Pager

Pager is alphanumeric—up to 64 characters; comfortable and convenient.

Cancel Panel

Cancel panel is a second transmitter that allows the servers to cancel their pages when they pick up their order. Helpful if the transmitter is not convenient for servers. Both transmitter and cancel panel have full paging and cancel operations.
